

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing thermal performance metrics. The table contains multiple rows of data for various ESWB models.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing performance metrics. The table contains 48 rows of data, each corresponding to a different model number (e.g., ESWB 9-3319, ESWB 9-3469, etc.).

Evapco USWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing thermal performance metrics. The table contains 48 rows of data, each representing a different model.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing performance metrics. The table contains multiple rows of data for various models like ESWB 12-36K12, ESWB 12-36L12, etc.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing performance metrics. The table lists various ESWB models such as ESWB 12-4518, ESWB 12-45K18, etc., and their corresponding values across the 48 columns.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing thermal performance metrics. The table lists various ESWB models such as ESWB 12-46P18X, ESWB 8-23G9, etc., and their corresponding performance values.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing thermal performance metrics. The table lists various ESWB models and their corresponding values across multiple columns.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing thermal performance data. The table contains multiple rows of data for various models and conditions.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 50 numerical columns representing performance metrics. The table contains multiple rows of data for various models like ESWB 9-44G9-Z, ESWB 9-44H9-Z, etc.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing performance metrics. The table contains 48 rows of data, each corresponding to a specific model number.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 48 numerical columns representing thermal performance metrics. The table contains 48 rows of data, each corresponding to a different model.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for 1/10/2017, Model, and 48 numerical columns representing performance metrics. The table contains data for various ESWB models such as ESWB 8-33H9-Z, ESWB 8-33J9-Z, etc., up to ESWB 8-23H18-Z.

Evapco ESWB Line Thermal Performance in USGPM - Galvanized Steel Coil - 30% Ethylene Glycol as Process Fluid

Table with columns for date (1/10/2017), Model, and 36 temperature points (67 to 98.6). Rows list various ESWB models (e.g., ESWB 8-23H18-Z, ESWB 8-24H18-Z) and their corresponding performance values.
